

Pac States Wins 2012 McWane Ergo Cup

October 22, 2012

Pacific States 2012 Ergo Cup Team - 1st Place Winner

On October 17, 2012, the McWane Health and Safety Department held the Fourth Annual McWane Ergo Cup Competition. We are proud to announce that Pacific States came in first place with their pipe extractor project. Clow Valve won second place for improvements they made to hydrant grinding handling and Amerex (last year's first place winner) came in third place with their seam welding station project. A panel of four judges reviewed ten projects before selecting the winners. Pac States will now go on to represent McWane at the National Ergo Cup Competition!

But, the winning teams are not the only winners. The facilities are also winners based on the projected annual cost savings each of these facilities should see as a result of implementing these projects.

Clow Valve 2012 Ergo Cup Team - 2nd Place Winner

Amerex 2012 Ergo Cup Team - 3rd Place Winner
